From Insights to Impact: Setting the Stage for Scientific Exchange

Hello friends, respected seniors and teachers,

The scientific program for the 36th annual conference of the Urological Society of India - West Zone is ready. The program has been made with the intent of covering all the broad subspecialties and making it as interactive and visual as possible. We thank all our Session Convenors for their commitment and efforts in helping us plan a clinically useful and interactive scientific program.

Highlights of the scientific program are:

1. Live operative workshop (Laparoscopic radical nephrectomy, Robotic Partial nephrectomy, HOLEP, RIRS, Robotic Simple Prostatectomy, etc).
2. Semilive surgical sessions (4) covering basic urological procedures like PCNL access, reconstructive urology, Robotic Radical prostatectomy and sperm retrieval techniques.
3. Interesting debates (4)
4. Video based clinical sessions on complications (2) for robotic surgeries and surgeries for BPH
5. Panel discussions on clinically relevant topics
6. Time for delegate interaction at the end of every session.
7. Opportunity to young and newer people on the stage.
8. Prize paper sessions: 18 podium, 24 videos and 84 posters (3 prizes in each category)
9. Quiz for postgraduates and a special quiz for delegates.
10. Building a successful urology career for young urologists with options of international fellowships.
11. Short talks (4-6min each) replacing lengthy lectures.
12. Essentials beyond Urology: establishing your practice, managing your financial goals and keeping you legally safe.

Having enlisted the highlights, the truth remains that no scientific meeting can be successful without a healthy delegate attendance and participation. We look forward to everyone's registration and participation in our annual academic event. We also look forward to your feedback and suggestions towards betterment of the scientific agenda every year.

Regards,

Dr. Rajesh Kukreja (Hon Secretary),
On behalf of The Council, USIWZ and
the Goa Urological Society

Dr. Ajay Bhandarkar (President),
On behalf of The Council, USIWZ and
